WE **POWER** COLLABORATION

with a nationally recognized
economy of innovation.

2nd in the Nation

for advanced industries*

- BioHeartland is home to global anchors in human, animal and plant health
- Indiana commits \$1B in investments to bioscience initiatives with plans to add 100,000 high-wage jobs over the next ten years

“We see the capabilities; we see a location that can attract talent, can build on the agbioscience background that we see with Purdue and AgriNovus and many other talents and our long history here that we’ve had.”

— Jeff Simmons, CEO of Elanco (Inside Indiana Business)

Built by innovation. Backed by industry.

Corteva selects Indianapolis as the global headquarters for its new market-leading crop protection and nature-inspired technologies company, choosing Indiana over multiple competing states.

United States Department of Agriculture names Indianapolis one of five regional hubs in reorganization and relocates headquarters of Supplemental Nutrition Assistance Program.

Elanco invests \$300 million in new global headquarters located at newly created OneHealth Innovation District in downtown Indianapolis, adding 570+ jobs over the next 10 years.

Sustainea + Primient announce a \$400 million co-location partnership to establish the largest U.S. Bio-MEG facility in Indiana to produce renewable, plant-based biofuel.

Irresistible Food Group announces a \$54 million facility to manufacture Grillo's Pickles, creating 150 jobs; and invests \$200 million to build its King's Hawaiian manufacturing facility.

BioHeartland launches as the shared identity uniting Indiana's plant, animal and human health strengths and elevating Indiana's global bioscience leadership.

Heartland Bioworks receives a \$51 million implementation grant to advance bioinnovation following Indiana's designation as a Regional Tech Hub.

AgReliant Genetics is acquired by global plant genetics company **GDM**, strengthening its portfolio of high-performing seed solutions for growers.

Athian receives investment from Chipotle's Cultivate Next Fund to solve critical challenges across agriculture, supply chains, sustainability and food systems.

Liberation Bioindustries invests \$115 million to develop its first commercial-scale biomanufacturing facility, creating 45 new high-wage jobs.

BiomEdit advances its novel product to final phase and secures \$18.4 million in Series B funding to support planned commercial launch.

True Essence Foods announces \$27.6 million Series B fundraise to accelerate production and implementation of equipment and increase headcount.

Vital Farms announces egg washing and packing facility, creating 150+ jobs and generating \$350 million in additional revenue.

SUCCESS DEPENDS ON **COLLABORATION**, AND
THE FUTURE DEPENDS ON **AGBIOSCIENCE**.
